

Annual return graph^{1, 2}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2023.

Important: This does not tell you how the fund will perform in the future.

What fees are investors charged?

Investors in the AMP Lifesteps Growth Fund are charged fund charges. In the year to 31 March 2023 these were:

	% net asset value
Total fund charges (estimated)³	1.76%*
Which are made up of -	
Total management and administration charges (estimated)	1.76%
Including -	
Manager's basic fee(estimated) ⁴	1.60%
Other management and administration charges (estimated) ⁵	0.16%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
NIL	

* Based on an increase in other expenses, the Manager estimates that the total fund charges for the next scheme year will increase to 1.88% of the net asset value.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$509.00 (that is -5.09% of his initial \$10,000). Craig also paid \$0.00 in other charges. This gives Craig a total loss after tax of \$509.00 for the year.

Notes

- 1 From 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital), now known as Macquarie Asset Management (NZ) Limited (Macquarie), as the underlying fund manager for this fund. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock Investment Management (Australia) Limited) and AMP Capital, now known as Macquarie.
- 2 For the "Average over past 5 years" period in the table and period ending 31/03/2022 in the graph, we have used a composite index to calculate market index returns. For periods in the graph prior to the period ending 31/03/2022, the market index returns have been calculated with reference to a composite index or appropriate market index. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invested into. A composite index may be a less reliable indicator of performance than an appropriate market index. The return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 The Manager's basic fee is an estimated bundled fee for the combined services of the Supervisor, underlying investment management fees and an Adviser fee being up to 0.45%.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 6 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
